REQUEST FOR PROPOSALS

FOR WATERSHED PARTNERSHIP PROJECTS THROUGH THE HAWAI'I DEPARTMENT OF LAND AND NATURAL RESOURCES

The Hawai'i Department of Land and Natural Resources (DLNR) is seeking proposals from existing or developing Watershed Partnerships for projects that protect mauka forests and the water resources within the Protective (P) subzone of the Conservation District. Types of projects to be funded (but not limited to this list): implementation of watershed management plans; monitoring effects of watershed protection; access (including road and trail maintenance); development of watershed management plans; small-scale fencing projects; ungulate control; removal of invasive weeds from targeted areas; reforestation of target areas with native plants including rare species; community outreach programs to inform the public at large about landowner concerns and management activities; and fire protection measures to address the wildfire threat. This program seeks to provide supplemental funding to support activities to protect, restore or enhance our forests on which we depend for our water supply, and the natural and cultural resources which are an integral part of Hawai'i. In addition to new proposals, it is anticipated that nine existing or developing watershed partnerships will be re-applying for the expected \$500,000 available through this funding program.

The Department will accept proposals for FY 2004 funding of projects through June 30, 2003. Notification of awards will be made by August 15, 2003, following consultation with the Forest Stewardship Committee and the Natural Area Reserves System Commission. Funding authorization is given for a one-year period from notification of award. All projects are subject to availability of funds.
